I wish to express my objection
re the published plan to abolish
the Federal electorate of Gwydir.

In my opinion this is not a
Commonsense idea.

I cannot understand how one man
could adequately represent the people
in such a large area if absorbed
into Parkes - representing 47% of the
state of NSW.

I sincerely hope this letter will help to
save Gwydir ~~and~~ Parkes electorates, both
of which are large rural productive
areas. Gwydir is very well served by our
present MP.

I do think this matter has not been
thought through sufficiently.

By creating such a huge electorate
the proposal would effectively reduce
the voice of country people in the
Federal Parliament.

How about removing the Sydney
electorate with a smaller population
than that of Gwydir?

Yours faithfully
