Dear Sir,

I'm protest to the proposed Redistribution of Federal Electoral Boundaries in New South Wales, firstly on looking at the map showing proposed boundaries it is blatantly obvious the huge area that will be created in the abolishment of the seat of Lywyder and in merging it into the seat of Parkes. This would create huge difficulties in making ~~as~~ the people travel large distances to see their member of Parliament and make their voices heard.

Secondly, I feel it would be far more sensible to abolish a Sydney seat instead where people are in much closer proximity to their representatives in Parliament. It is hard enough already for the country voices to be heard against the majority in the City

Yours sincerely

Patricia P. Cross
