NARRABRI. 2390

Dear Sir/Madam,

I wish to object in the strongest possible terms to the boundary changes and the abolition of the seat of Gwydir.

No one person can REPRESENT people over such a huge area. Isolated people struggle enough with their isolation without making it harder for the issues that effect them to be heard at government levels. It is not always about 1 vote, 1 value – it should be also about fairness of representation. If the man or woman who next represents our area also has the ability to hold a ministerial position, well it is just impossible.

Our present member, John Anderson, has done a massive job with all his responsibilities, but the load he carried was also exhausting. To make the area bigger to represent, is just plain ridiculous.

Yours faithfully,

Robin Capp
