NSW, 2002

3rd July 2006

Dear Sir/Madam

Having lived on the Sydney peninsula for over thirty years we have chosen to retire in Cessah NSW. Three years ago we purchased land at 9 Cameron Place Cessah NSW and during that time we have enjoyed the country atmosphere and community spirit. We have met our local member the Hon. John Anderson M.P. member for Gwydir and find that contact with parliamentarians in our regional area is very important.

The redistribution Committee should be aware that along with us are many more long term city occupants, choosing to relocate to rural areas.

The government is advocating, through the media, the advantages of relocating to areas within four or five hours drive of Sydney.

We see this proposed redistribution as a negative and should not be implemented.

City parliamentarians do not understand the ramifications of moving country area boundaries, as it is not acceptable to us that our local member will become a "Father Christmas image" and only visit us once a year!

Yours faithfully

Leone & Duntor Hutchenson
