To
The Chairman
The Boundaries Redistribution Committee

Dear Sir

Please find my absolute disgust and concern for the manner in which Country Representation is being eroded by Boundary Redistributions and the proposed loss of a Country Seat..

There is an urgent need for Government policies to work towards repopulating the Country and Rural areas.

Currently there needs to be an urgent change of criteria.

You cannot possibly expect a Representative to cover the areas that would be involved in the changes that you suggest..

The Country Representatives are always the most hard working in any case - longer hours away from home and longer distances travelled..

Please do not wr

ite to me and say the considerations conforms with the current Legislation because it is obvious that there is need for change.

Your faithfully

Nancy L Lodge
