Mr Campbell.

I am writing to protest the abolition of the Federal seat of Swindon and the proposed federal Electoral boundaries of <sup>Partas Swindon</sup> ~~Partas Swindon~~ <sup>James</sup> ~~James~~. Once again, the Country people are ignored.

It is ludicrous + absurd to expect the Federal member, of whatever Party it may be in the future, to be accessible to the Constituents to be able to visit him/her, with their concerns - + physically impossible for the member to cover that area because of the tyranny of distance + the expense of getting to + from wherever the member is visiting. The whole suggestion is just another slap in the face for people best of the "Great Divide"!

Yours faithfully:

Judith M. Bowman
