World Square 2002

G'day Committee,

We would like to state our opposition to the merging of the Parkes and Gwyder electorates.

Both of these electorates are so big now that the representatives are virtually inaccessible by the voters. The merging would only make the situation worse.

From past experience our voices hold little recognition in the government decision-making.

It is about time that the government took into consideration, that though these electorates may not have the numbers in theory to substantiate two representatives, the vastness of the area requires at least that many if not more.

We realise that the government has to have more money to support all of the Muslims and terrorist but some consideration should be given to the future of the bush Australian who, mostly, are at least prepared to work and keep something for their future generations.

Yours faithfully
Tom & Betty Taylor
