Redistribution Committee for NSW.
Australian Electoral Commission
Dear Sirs,

It has been brought to my attention in your recently released draft boundaries for NSW that there will be a proposed merge of the electorates of Parkes and Gwydir. This would be a complete loss of the electorate of Gwydir and the creation of an extremely large area making many difficulties for that Parliamentarian. This new technological age has made keeping in touch much easier but the personal touch between the residents and their elected member is what we expect- even demand, and not possible in this proposal.

Rural areas need a voice in Parliament – we do not have ready access to the many city based facilities therefore please reconsider and overturn this totally unfair proposal.

Yours Faithfully

A handwritten signature in cursive script, appearing to read "Richard Marocco".

Mr & Mrs Richard Marocco.
