Redistribution Committee for N.S.W.

To whom it may concern

Being a voter in the Gwydir electorate I'm extremely upset by the possible loss of the electorate. The proposed new electorate will be so large it will be very difficult for any Member to be readily available for constituents. The proposed new electorate will be 379,474 square kilometres which is 47% of the state. My husband & I feel it should be a Sydney seat that goes with less interruption & loss of representation for voters. Hoping you will consider our concerns in this matter.

Yours sincerely

Jean & Colin Jones
