Dear Sir,

I am angered to hear that the seat of Guyra may be abolished. The size of the new seat would be enormous and therefore not possible for the member to represent his constituents. Country people are losing their voice and after all we are just as important as our city dwellers.

In a recent electoral redistribution the Murray-Darling seat was reduced in size, therefore I find this decision most perplexing.

I am urging you to please overturn this proposal.

Yours sincerely

Jenny Chappell
