Redistribution Committee for New South Wales  
Australian Electoral Commission (NSW).

Dear fellow citizens of Australia,

As a voting citizen of Australia since 1952 I respectfully request that your Committee give your favourable consideration to retain the electorates of Parkes and Gwyder because of the vast expanses they cover.

The suggested plan to amalgamate these two electorates into one, (which would cover almost 47% of the State of NSW) is not in keeping with Australia's policy of providing fair and equitable representation for all people living in Australia especially those in this particular area.

For good representation citizens need to know their local member, be able to contact them and in a number of cases be able to contact them personally or visit their office.

Also how could any member be able to cover all this area, know what is happening in the various towns and districts and to be able to help people with their respective problems.

Thanking you for your favourable consideration,

Yours respectfully,  
David Muller.

*David Muller.*
