To whom this may concern

We are protesting at the changing of the boundaries that maybe soon about to occur.

We from THE HAWKESBURY PADDLEWHEELER are a main tourist attraction to the Hawkesbury. We have lot in common with the Blue Mountains, being both tourist areas, not the city and yet not the country. We have also been very happy with our local MP, as he is always willing to listen regarding any issue.

We feel that we have nothing in common with the Blacktown areas, although being our neighbors they have mainly built up areas with totally different problems and lifestyle. We will never be the same as the Blacktown area due to our location also because of our Historical history and the local flooding.

Sincerely protesting,

Susan and James Kelly  
Local business owners
