24th July 2006.

The Australian Electoral Office for NSW.

Dear Sir,

It is with sincere disappointment of the current state of affairs of the electoral boundaries commission that I feel obligated to put pen to paper.

I, & my family have lived & worked in the Gwydir electorate for over 45 years, it is a vibrant, wealth producing area for our nation, & increasing the size of the electorate to larger than the total British Isles & expecting one person to adequately represent everyone & their problems is downright foolish.

My forebears travelled to this country by wind blown ship in the 1860's from Cornwall to settle & make a life, not in the cities, but out in this country.

They would shudder with disappointment (if still alive) at the treatment being handed out to ordinary Australians of the Gwydir electorate by a few in the confines of government & bureaucratic privilege.

This is a very disappointing direction we are heading in & not for the benefit of ordinary Australians.

Please Retain the seat of Gwydir.

Yours Truly

Bruce R. Penberthy
