Dear Sir or Madam,

We strongly object to the proposed boundary changes and elimination of the Federal seat of Gwydir in N.S.W. It's not broken, why try to fix it? The new proposed seat of Parkes will be unwieldy, and impossible for one man or woman to represent fairly. Why not eliminate a Sydney seat to balance the population problem? The surrounding electorates could easily cope with extra voters split three or four ways.

The existing Gwydir is one of the major food-bowls of the State and must continue to have the representation it needs for maximum production.

Please reconsider your decision - it must be over-turned.

Thanking you in anticipation,

Yours faithfully,

(Mr) John Simson

(Mrs) Judith Simson
