

**The Federal Redistribution 2006
NEW SOUTH WALES**

Public Objection Number: 948

Name: Mrs Hope Fishpool and Mrs Betty Taylor

Page(s): 1

**Memo
to
John Cobb**

Please register the concern of Hope Fishpool, Hoskins St , Nyngan and Betty Taylor
1 Minore St, Nyngan at the suggested combining of the Parkes / Gwydir Electorate

The present planning according to numbers of people and also the economics of an
area while ignoring people needs is an alarming trend

The majority of people living in the Parkes and Gwydir electorates are Australian
citizens, while services such as health, education, roads, water electricity will be
provided differently in remote and isolated areas all people are entitled to services
and an advocate to represent them in government.

One representative could not personally represent people in such a vast area, and
would be poor in health if they attempted to do so

Electronic communication can be an asset and effective, and aeroplanes seen as
covering large areas, but the human presence remains essential

Personally connecting and representing this large area, which is both rural and
remote and also diverse, requires its representative to have a knowledge of a
variety of communities and industries that is beyond reasonable expectations

Please note our concern and the right of individual people to have an effective
personal representative and object strongly to the recommendation that Parkes /
Gwydir become one electorate

Date *27th July 2006*
Signed..... *Betty Taylor*
