Committee

I strongly object to Guydir Federal Electorate being abolished.

You are giving us an inaccessible member who will be too busy to fully represent, unable to take on any Parliamentary Committees and any ministerial position.

West of the Divide is being labeled an area not worth representing by downgrading a future representative to a 2nd class position.

There are many towns in the proposed new electorate, unlike the electorate of Kalgoorlie, making it a physical impossibility for the new member to visit and represent adequately.

There is no city transport network here to enable constituents to travel to the Federal Representative. Private travel, due to fuel prices being high and climbing in the country, is too costly and many can't afford to drive great distances to seek representation.

M.A. Vincent

Mrs M. A. VINCENT
