Subject Include us in Page electorate

Classification  Unclassified

### Redistribution Committee for NSW

We request that when the redistributoion of voting regions in the Northern Rivers district of NSW takes place, the Dorrigo plateau be removed brom Cowper and included in Page.

Our reasons are that Cowper is a coastal electorate with interests and requirements relating to its coastal location, while Page is primarily an inland, rural electorate, the Dorrigo Plateau is similarly rural and inland and has geographic orientation towards the Clarence Valley and Grafton. Our concerns are with the health of the Clarence River system, native vegetation, rural viability and good local infrastructure.

It is very rare that we hear anything from the member for Cowper, who concentrates his attention on Coffs Harbour and environs.

Sincerely  
Kenneth G and Linella M Judd
