To The
Divisional Changes Department
Australian Electoral Commission
Queensland State Office

Dear Sir or Madam,

I fully agree with many locals not to change the borders of our Federal Division. I'm sure you have received many letters outlining why. Including the Noosa Council submission. One of the main arguments is that those that live here in the coastal region have many many issues that differ from communities that would be included by the changes.

I go as far to say that in quite a few matters of concern the dissimilarity between these communities are quite substantial.

After some research I see a strong connection of complimentary visions and attitudes between the population that live in coastal areas.

I feel very strongly that our electorate is served best by a LOCAL Federal Member.

I do not belong to any political party. I have ticketed in 7 state and federal elections.

+ scrutinised. I have learnt much by taking active part in our democracy.

Once again I ask and urge you to review this change.

Sincerely
LD
