

The Federal Redistribution 2006
QUEENSLAND

Objection Number 1

Mr Gary Lynch

26th June 2006

To
The Electoral Officer of Queensland

Dear Sir,

I would like to comment on the "Proposed Redistribution Electoral Boundaries of Queensland". I am a resident of Gracemere, a town in the Fitzroy Shire in close proximity to the city of Rockhampton. I am also a Local Councillor of Fitzroy Shire. Gracemere is located at the edge of the Gracemere-Stanwell Corridor, a corridor that will guide industrial expansion in our region. The corridor regulates new uses and works in relation to their impacts on the existing uses in the Area, their scale, design and location, and their compatibility with land in adjoining areas. It is identified and recognised as an important area for future industrial growth, not only for the local area but for the region as well. The Gracemere-Stanwell Corridor is a feature of our Fitzroy Shire Planning Scheme approved by the Queensland State Government.

I cannot comprehend how this industrial corridor will be allowed to be divided under the proposed redistribution of boundaries. I believe that dividing it under the proposed boundary changes would lessen the significance of the area and would not allow for proper representation of the area by the elected members of either the new Wright seat or the present Capricornia seat.

I would ask you to reconsider the boundary alignment in this area and consider changing the boundary to include the whole Gracemere-Stanwell Corridor into either the Wright electorate or the Capricornia electorate.

Yours truly
Gary Lynch
