Re Proposed Redistribution

Dear Sir

I wish to object to the latest redistribution on several grounds

The way the seat is set out is totally unpractical for a representative to cover. I believe there is no need for an extra seat to be added at all, it will only add more costs to us taxpayers

No one can say that our federal M.P.s are over extended with their work load. In the main the population is increasing along the coastline of Queensland this seat goes a long way into the hinterland

We are over governed as it is we need another politician like we need a hole in the head

The money one of these people cost is better spent on our hospitals and that way we would end up with a good result. I am sure that less than 8% of the population actually ask their M.P. to do anything for them

I do believe the name chosen should be changed (no reflection on the lady who did good things) but it does bring bad memories of a former local member

Yours faithfully
R Williams
