Subject objections to the naming of the new federal electorate

Classification  Unclassified

I wish to voice my objection to the proposed name of the New Federal Electorate. The current name of "Wright" has, from my observation and conversation with a wide group of people, very little support in the local community even though it does honour a worthy - if relatively unknown - recipient.

In my view it would be better to name the electorate after the well-known pioneers of the Central Queensland area, the Archer Brothers, thus naming the electorate "Archer"

Thank you

Robert Mills
