MESSAGE:

We would like to object to shifting the Western Shire (for the fourth time) into the seat of W. Wright, as usual you never get it right first time around, and to have it associated with the name Wright (Keith Wright) we have all heard of his reputation.

We consider ourselves to be true western Queenslanders, shifting in with Gladstone beliefs this, as we do not go hand in hand with the way as they do on the coast, maybe whoever is in charge of the redistribution should come for a drive & find out how far away we really are for them or ask some of the thousands of tourists who pass through each year & visit the western shire, let us have a true western note not a coastal one

Regards  
A. V. Ellis
