Dear Ian

Re: 2006 PROPOSED REDISTRIBUTION OF QUEENSLAND INTO ELECTORAL DIVISIONS

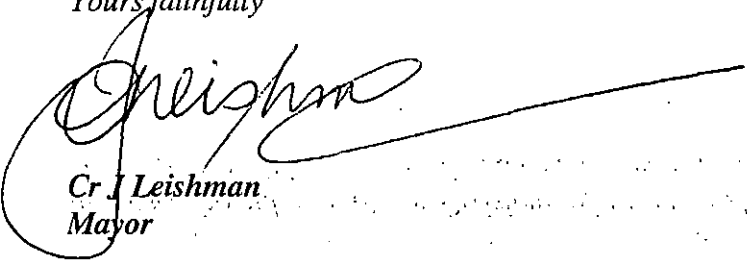

Council acknowledges receipt of the 2006 Proposed Redistribution of Queensland into Electoral Divisions.

Council met to discuss the proposals on 10 July 2006 where it was noted with interest the proposed boundaries of the Divisions of Fisher and Longman. As a result of Council's considerations it is requested that amendments be made to the proposed boundaries.

The boundary between Fisher and Longman in the area between Wamuran/Moodlu and Morayfield requires amendments. The proposed boundary divides a community of interest in this area and in addition the proposed boundary fails to take into account the current approvals for substantial residential developments in this area. These areas include housing, which are currently under construction. Failure to take this into account during this boundary review will necessitate further boundary reviews in this area in the near future.

Council invites representatives of the review committee to visit the Shire to view first hand the growth and development in this region and Council recommends that the boundary between Fisher and Longman in this specific area be revisited.

Yours faithfully

Cr J Leishman
Mayor
