Subject Electrol Divisions

To whom it may concern,

It does concern me very much, I am a long time resident of Wesley Vale, and elected member of the Latrobe Council since 1994, I have many residents contact me with there objection to changes of the proposed electoral division, we are all feed up with continuing changes. We are part of the Northwest Coast and very suited to the greater Braddon electorate. As a Council and community we a linked with many regional bodies and economic governance connections.

We will be subject to a great loss of representation when it comes to funding and other essential provisions involving our municipality.

The wonderful beach at Port Sorell known as Freers Beach and part of North West Coast has just been named as the second best beach in Australia, the majority of people in Lyons would not know where it is.

Your sincerely

Garry Sims  
Latrobe Councillor
