Subject Name Change For Electorate

To Whom It May Concern

A very brief submission in support of changing the name of the electorate of Denison to Inglis Clark:

The relevant arguments have been well presented in submissions on this subject. While Denison was a singularly undemocratic person, Clark's proportional representation method is widely recognised as the most democratic voting arrangement.

It makes good sense to acknowledge one who worked hard to improve democratic rights rather than one seems to have actively worked to preserve power in the hands of powerful minorities. I strongly commend the proposal.
