To Whom It May Concern

I am a resident in the Federal seat of Riverina and I am very much against the proposed changes to electoral boundaries, particularly with the strong indications that the seat of Riverina will go. One wonders how you people can think that a sitting member of a country electorate can cover the geographical areas expected to meet all concerns of their residents.

May I suggest you take a seat from the Sydney area instead as it would be much easier to merge 2 seats in the city than in the country. I strongly urge you not to take away any country seat in NSW particularly Riverina. It is a vital electorate and no matter who is in power, they are needed to represent us in Federal Parliament. Country NSW is struggling enough with the drought without less representation in Parliament.

Thanking you.
