Briskare.

Dear Sir,

Listening to Fien on the morning
show talking about - What Shire should
Kuranda be in - Well -

As far as the present State Gov. is
concerned Qld begins & ends 50 km out
from Brisbane.

Qld is big enough to divide Sth / Nth
Qld. How ridiculous to have the
"Islands" (wet tropics) joined with
Charter Towers... (Bliss Fraser Bligh Beattie!)
Kuranda is wet tropic & similar to Atherton,
but a dry belt that contains Maruba Shire
is joined to Kuranda. Certainly the
difference in climate is glaring once you
leave the Kuranda range. Really none of
the arguments around, now were ever

an issue until B.B.F., (Beattie Bligh
Fraser), gave us the answer !!!

Like the above no help, but I can
sympathise with Kuranda residents
in their quest not to be altered again.

Yours faithfully

Marg Hammett 'OA'
