

**Ref: Complaint by Adam Duncan**

Mr Duncan,

I strongly disagree with your opinion in which you state 'Love Australia or Leave' or LAOL party name is racist and xenophobic.

The definition of racist 'is a person who believes that a particular race is superior to another'.

I do not believe anyone's race is superior to another. Love Australia or Leave Party believes in equality for all and that all people living in Australia should be treated as equal.

The definition of xenophobic 'having or showing a dislike or prejudice against people from other countries'

Love Australia or Leave Party have many members of people and welcome members who come from other countries. We have current members who come from Syria, Egypt, India, Europe, Italy, Greece and other countries that have become permanent residents of Australia and are eligible to vote in Australia.

We also have members who are associate members who are not residents of Australia who are associate members who support Love Australia or Leave Party and are subscribers of the LAOL party newsletters.

In regards to your objection to Love Australia or Leave Party's logo submission, we believe that the logo submitted is representative of Love Australia or Leave Party's hardline immigration policy. The word 'FULL' represents that we are economically full. Australia is struggling economically and is over \$96m a day in debt. We need to secure our own future before we assist our global neighbours. We have over one hundred thousand people sleeping on our streets and high rates of unemployment, we cannot turn our back on our own Australian citizens at the expense of others until we secure their future and those of all Australian Citizens.

Kind regards,

Kim Vuga  
President of Love Australia or Leave Party
