Objection to proposed redistribution

Amendment

The entire suburb of Millwood and the suburbs south of Mitchell Street through to Fullarton Road, Fullarton be added to Boothby. The residents in these areas share many common social clubs, shopping centers, sporting venues, schools and forms of public transport with other suburbs in Boothby namely those in the Unley council area and those in the suburbs of the City of Mitcham bordering Cross Roads. The addition of these suburbs should also alleviate travel of whomever represents Adelaide as its Northern boundary has been extended, these said suburbs are more removed from other residents in the proposed Adelaide electorate as it takes in more Northern suburbs and the people on the South side of the proposed Adelaide electorate are closer to those living in the electorates of Boothby and Sturt and have more in common with these residents as previously stated. Most of the residents in the map provided, would never have even been in the Northern parts of the Adelaide electorate and would benefit much more by being in the seat of Boothby.
