6 May 2011

Redistribution Committee for South Australia
9th Floor
1 King William Street
ADELAIDE SA 5001

To whom it may concern,

I present the Liberal Party's submission relating to the redistribution of federal electoral boundaries for South Australia.

I draw your attention to the three sections of our submission as follows;

1. Written narrative of the proposed realignment of electoral boundaries;
2. Detailed maps outlining the proposed changes to South Australian divisions; and
3. CCD lists for each of the proposed divisions.

The Liberal Party of Australia (SA Division) is willing to provide further information in written form or by presentation to the Redistribution Committee should the need arise.

Yours sincerely,

Bev Barber
State Director

Introduction

The process for the redistribution is governed by the Commonwealth Electoral Act 1918 (The Act) and ensures, that as near as practicable, there are a similar number of electors in each division for each State or Territory.

As 7 years have elapsed since South Australian divisions were last determined on 17 December 2003 the Australian Electoral Commission (AEC) is required by legislation to conduct a redistribution.

South Australia is entitled to 11 seats in the House of Representatives. This entitlement will not change as a result of this redistribution.

Australian Electoral Commission data provided to the Liberal Party of Australia (SA Division) shows the current total South Australian enrolment is 1,107,001 giving a quota of 100,636 electorates per division.

AEC projections estimate statewide growth in enrolment at 4.09% to 21 January 2015, resulting in total state enrolment of 1,152,271 at this date. This means the divisional quota as at 21 January 2015 is 104,752.

The Act permits a deviation from the quota of 10% for the current enrolment and 3.5% for the projected 2015 enrolment, based on the notion that numbers are unlikely to be identical for each division.

Based on the projected enrolment number the maximum number of electors in a division in South Australia at the projection time of 21 January 2015 is 108,418 and the minimum is 101,086.

The suggested boundaries in this submission are based on the criteria provided in the Act.

At a briefing on 13 April, the Electoral Commissioner outlined the Redistribution Committee's criteria for the redistribution.

The criteria of one vote one value has been used as the fundamental basis for this submission with due consideration given to the secondary criteria listed in the Act including: communities of interest within each division, including economic, social and regional interests; means of communication and travel in the proposed division; and the topography of the proposed division. The Redistribution Committee's subordinate consideration of existing division boundaries has also been considered.

Consideration of AEC Data

AEC data reveals all South Australian divisions are within the allowable deviation from the 2011 enrolment quota.

Projected statewide enrolment growth to 21 January 2015 is 4.09% but projected growth varies greatly between divisions with relatively rapid growth in the outer metropolitan electorates of Kingston and Wakefield contrasting with relatively static enrolment in Hindmarsh. Resultantly, 6 of South Australia's 11 current federal electoral districts are outside of the allowable deviation from the 2015 enrolment quota.

The following table illustrates the differing growth rates between divisions. Those divisions with a projected enrolment beyond the allowable deviation from the quota are highlighted.

Table 1: 2015 Enrolment Projection and Quota by Division

Division	Estimated Growth to 21/1/2015	Projected 2015 enrolment	Deviation from Quota
Adelaide	4.33%	102,662	-2,090
Barker	4.41%	109,861	5109
Boothby	2.29%	100,073	-4,679
Grey	4.02%	104,118	-634
Hindmarsh	0.48%	100,554	-4198
Kingston	7.15%	110,092	5340
Makin	3.88%	99,934	-4818
Mayo	4.80%	107,074	2322
Port Adelaide	4.67%	109,501	4749
Sturt	2.29%	101,161	-3591
Wakefield	6.45%	107,241	2489

As the table illustrates, a realignment of boundaries is required in the majority of South Australian seats. By necessity, this has a subsequent effect on several seats that are within the allowable deviation.

Barker

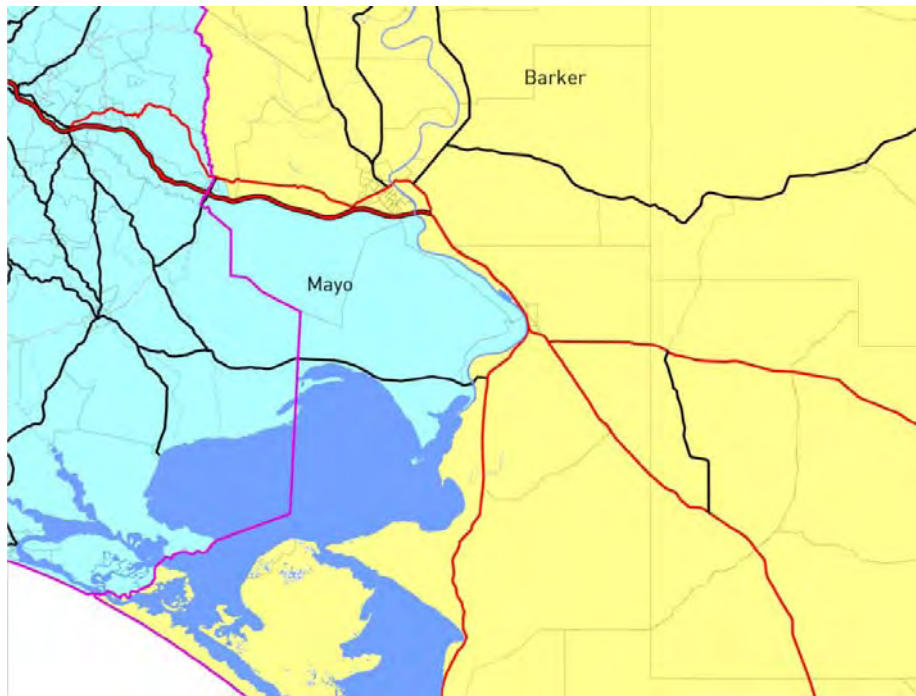

The seat of Barker has the second largest enrolment of all South Australian seats and a projected 2015 enrolment that is well above quota.

Bounded by the division of Grey to the north, the South Australian border to the east and the coast to the south, the Liberal Party of South Australia considers a realignment of Barker's western boundary to be most appropriate.

With a population density of fewer than 2 people per square kilometre, Barker is unique among the seats considered for realignment.

The township of Murray Bridge has a current enrolment of approximately 9,679 people and is a major provider of medical, transport, industrial and commercial services in eastern South Australia. To remove the town from the Division would result in there being no major hub between the Division's western boundary and the town of Mount Gambier in the far south-east.

The Liberal Party considers the most appropriate option to be a realignment of the Mayo boundary, as outlined in the below map.

Map 1: Proposed realignment of Barker-Mayo boundary

As pictured, the River Murray would form a strong natural boundary from Lake Alexandrina north to the town of Murray Bridge to meet South Eastern Freeway, a major geographical boundary and freight route, then following west to bypass the town of Callington and meet the present division boundary.

A similar issue was found to exist in the north-western corner of the Division, with the cluster of towns known as the Barossa (Nuriootpa, Tanunda and Angaston). With a combined enrolment of 10,000 people and sharing many health and commercial services, the Liberal Party could not identify any justification for separating the towns.

Instead, the Liberal Party considers realigning the boundary to Lyndoch Valley Road such that the town of Lyndoch and 6 surrounding Census Collection Districts (CCDs) be reallocated into the division of Wakefield as the most appropriate option in this region. This option delivers the required shift of population without the disruption to communities of interest that would occur if the major Barossa townships were separated.

These movements would ensure that the division of Barker, based on the projected figures, is firmly within the permissible deviation from quota as outlined below.

Table 2: Proposed changes to division of Barker

		Electors 2011	Electors 2015
2010 Boundary		105,224	109,861
Loses to	Mayo	1,144	1,199
	Wakefield	2,302	2,523
Retains		101,778	106,139
TOTAL		101,778	106,139

Mayo

The Electoral Commission Profile of Mayo identifies the Division as a predominantly rural and Hills based region of significant geographic spread, and as outlined above, the seat of Mayo is impacted by the need to realign the division of Barker.

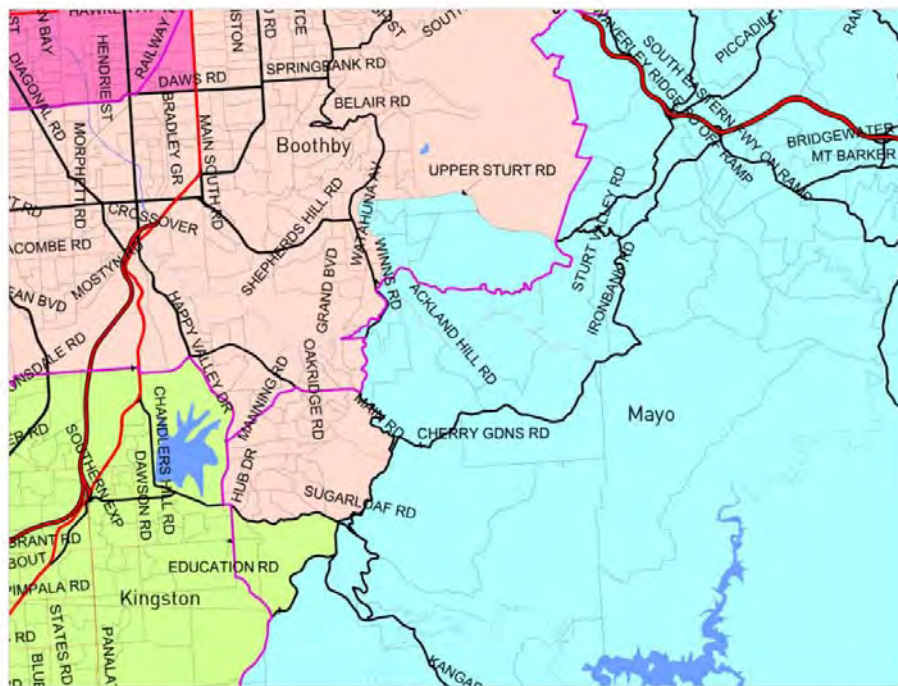

The Liberal Party proposes to extend the division of Mayo east into the seat of Barker to take in communities up to the River Murray whilst stopping short and leaving the Rural City of Murray Bridge in the seat of Barker.

This compounds the issue of Mayo's already high projected enrolment.

The Liberal Party considers the most appropriate option for Mayo to be the realignment of the outer-metropolitan boundary that dissects the suburb of Happy Valley and follows the Aberfoyle Park suburban boundary.

These outer metropolitan suburbs have a dense population and share strong community of interest links and services with the suburbs of Flagstaff Hill, Blackwood, Eden Hills and Bellevue Heights that run along the hills face zone, in the seat of Boothby.

As outlined in the below map, the Liberal Party proposes to realign the Mayo boundary to Piggott Range Road and Main Roads so as to exclude these suburban areas and reiterate the Division as a predominantly rural seat.

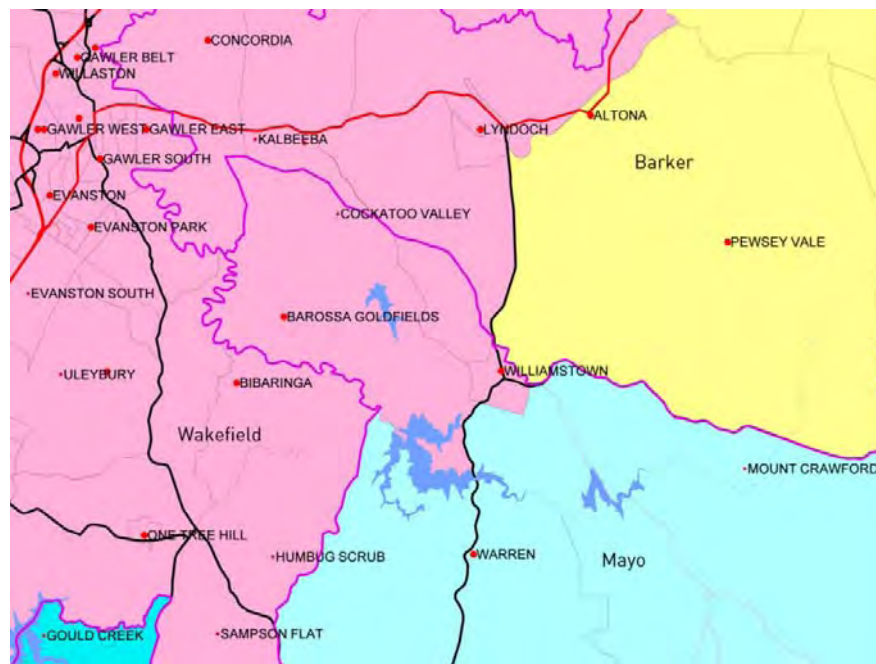

Map 2: Proposed realignment of Mayo-Boothby and Mayo-Kingston Boundaries

This movement of 11,704 voters would allow for the realignment of the Mayo/Kingston boundary to bring Kingston within the acceptable deviation from Quota as outlined below. The Liberal Party recommends Mayo's western boundary be realigned to follow the Onkaparinga River and Main South Road, thereby incorporating the rural townships of McLaren Vale and Willunga into Mayo.

These service towns support the Fleurieu Peninsula's largely primary-production-focussed workforce, including the world-renowned McLaren Vale wine region and are more fitting of Mayo's rural profile than the coastal suburban nature of the division of Kingston.

One final realignment proposed by the Liberal Party is to relocate the township of Williamstown in the Division's north to the semi-rural seat of Wakefield. Of close proximity to Lyndoch and Gawler, Williamstown has strong community of interest ties to these townships and is therefore more logically located in Wakefield than Mayo.

Map 2.1: Proposed realignment of Mayo-Wakefield Boundary

The Liberal Party of South Australia considers these realignments to be the best option for ensuring Mayo meets the 2015 projected enrolment quota while retaining its rural profile.

Table 3 summarises the proposed changes outlined above.

Table 3: Proposed changes to division of Mayo

		Electors 2011	Electors 2015
2010 Boundary		102,168	107,074
Loses to	Boothby	9,972	10,312
	Kingston	1,732	1,827
	Wakefield	1,744	1,932
Retains		88,720	93,003
Gains from	Barker	1,144	1,199
	Boothby	2,698	2,727
	Kingston	6,577	6,933
TOTAL		99,139	103,862

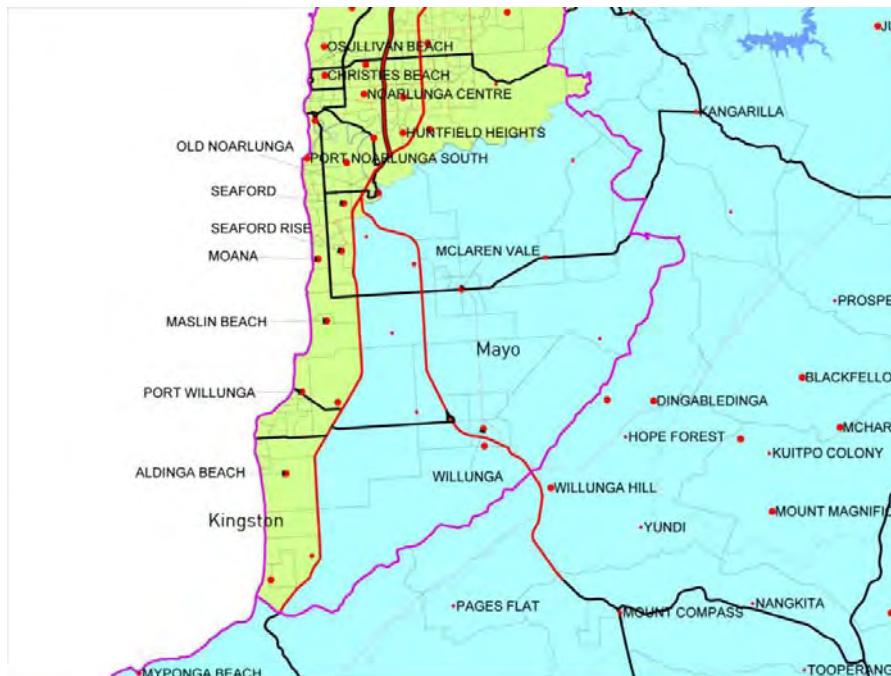

Kingston

As the division with the highest projected enrolment and highest projected growth (7.15%) boundaries in the division of Kingston must be realigned.

As a coastal division skirting Adelaide's foothills, Kingston is home to a significant portion of greater-Adelaide's proposed urban development and infill that will alter the inherent nature of the seat in coming years.

The Liberal Party of South Australia submits that the existing northern boundary of the Division provides a natural and logical demarcation between Kingston and Boothby. A strong community of interest exists between the suburbs of Hallett Cove and Sheidow Park in the north of the Division, with the region relatively self-sufficient in terms of services and facilities. With a number of significant development projects in the region this self-sufficiency is only likely to be improved in the future.

In keeping with the principle of maintaining communities of interest within divisions and also ensuring that enrolment figures, the primary criterion for the redistribution, are as close to quota as possible, the Liberal Party proposes a realignment of the areas of Willunga and McLaren Vale into Mayo.

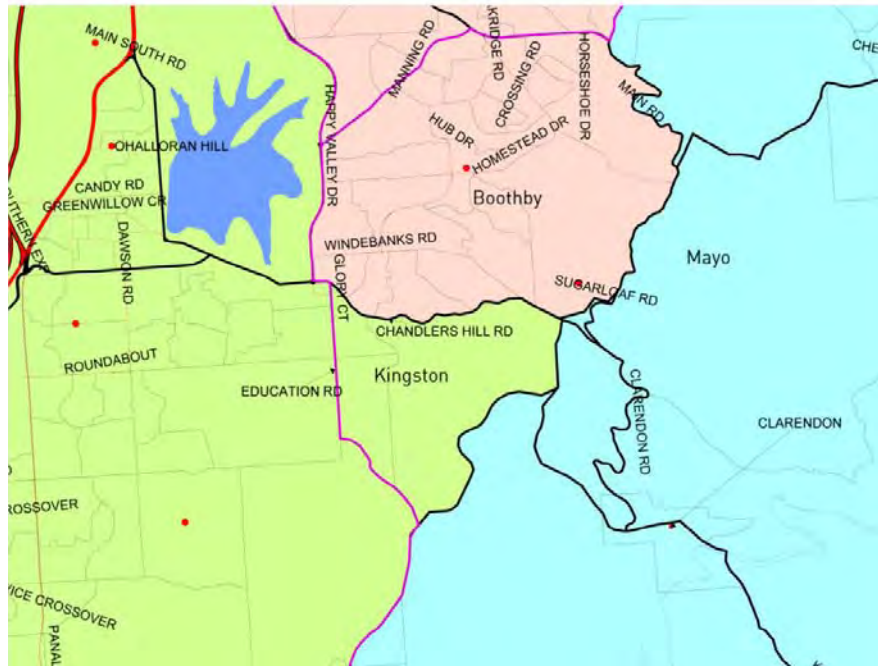

Map 3: Proposed realignment of Mayo-Kingston boundary along Onkaparinga River

These two areas are at best classified as peri-urban and sit well within the peri-urban/rural nature of Mayo. Constructed as service towns to support the Fleurieu Peninsula's significant primary-production industry, including the world-renowned McLaren Vale wine region, these towns are more fitting of Mayo's rural profile than the coastal and increasingly urbanised nature of the division of Kingston.

In order to meet the enrolment criterion as accurately as possible, the Liberal Party also submits a minor realignment of the north-eastern most Kingston boundary to fully incorporate the section of Happy Valley lying south of Chandlers Hill Road.

As outlined in Map 3.1, this semi-major transport link between suburban Adelaide and the foothills towns of Clarendon and Kangarilla provides a more defined boundary for Kingston than the existing Education Road boundary.

Map 3.1: Proposed alignment of Kingston-Boothby and Kingston-Mayo Boundaries

Table 4: Proposed enrolment changes to the division of Kingston

		Electors 2011	Electors 2015
2010 Boundary		102,750	110,092
Loses to	Mayo	6,577	6,933
Retains		96,173	103,159
Gains from	Mayo	1,732	1,827
TOTAL		97,905	104,986

Boothby

Based on the current division boundaries Boothby is 4679 electors below the 2015 enrolment quota placing it outside of the allowable minimum deviation of 101,086.

With an east-west orientation, Boothby is unique among South Australian federal divisions with the exception of the rural seat of Grey. As a result of this orientation Boothby has a natural coastal boundary to the west and peri-urban hills communities to the south and east.

Strong communities of interest are scattered throughout the hills face zone, particularly around the suburbs of Flagstaff Hill and Blackwood. Both are well serviced by local recreational, commercial and community facilities and have direct access to the Adelaide CBD by public transport and road networks.

The Liberal Party suggests that in order to bring the division of Boothby within the tolerances of the projected enrolment criteria, the best solution is to transfer electors from the division of Mayo to the division of Boothby.

In giving consideration to preparing a redistribution which keeps changes for electors to a minimum, the Liberal Party suggests that the Committee consider transferring the suburb of Aberfoyle Park from Mayo to Boothby.

Such a transfer would meet the numerical criteria for the redistribution and produce boundaries which are at least as obvious as the existing boundaries of Manning Road, Black Road and Main Road, Coromandel Valley.

As illustrated in Map 4 below, the proposed boundary would extend the existing Happy Valley Drive border to Chandlers Hill Road in the south meeting Main Road in the east before rejoining the existing boundary at the intersection of Main Road and Black Road.

Map 4: Proposed alignment of Boothby-Mayo and Boothby-Kingston Boundaries, incorporating Aberfoyle Park into Boothby

It is worth mentioning that in 2003, both the Liberal Party and the ALP in their submissions made suggestions that Aberfoyle Park had a common community of interest with Flagstaff Hill and the metropolitan division of Boothby and that the transfer of electors in Aberfoyle Park from the division of Mayo to the division of Boothby could be well supported on community of interest grounds. The Liberal Party believes these arguments still apply.

It is also worth observing that in comments on the metropolitan part of Mayo the 2003 Redistribution Committee accepted 'the desirability of uniting the Aberfoyle Park/Flagstaff Hill areas' but the overall needs of the 2003 Redistribution required the transfer of electors from the northern boundaries of Boothby.

In order to make this change, the Liberal Party submits that a minor realignment of the eastern division boundary around the outer suburban area of Hawthorndene and Upper Sturt (partial) would be appropriate.

As Boothby encompasses only a section of Upper Sturt at present, this realignment would shift Hawthorndene and Upper Sturt wholly to Mayo with a proposed boundary that is at least as significant as existing divisional boundaries such as Manning Road, Happy Valley Drive, Black Road and Main Road.

Additionally, to achieve quota criteria for the division of Hindmarsh, a realignment around the suburb of Edwardstown is proposed to realign this section of the division boundary to that which existed prior to the 2003 redistribution.

In view of the desirability of transferring Aberfoyle Park's almost 9000 electors from Mayo we believe these minor realignments of Hawthorndene, Upper Sturt and Edwardstown are a practical way for the Redistribution Committee to achieve its primary enrolment criteria while taking account of the community of interest criteria.

Table 5: Proposed enrolment changes to the division of Boothby

		Electors 2011	Electors 2015
2010 Boundary		97,830	100,073
Loses to	Hindmarsh	1,494	1,519
	Mayo	2,698	2,727
Retains		93,638	95,827
Gains from	Mayo	9,972	10,312
TOTAL		103,610	106,139

Hindmarsh

Hindmarsh has the lowest projected growth rate of any South Australian division and has a projected 2015 enrolment of 4198 electors below quota.

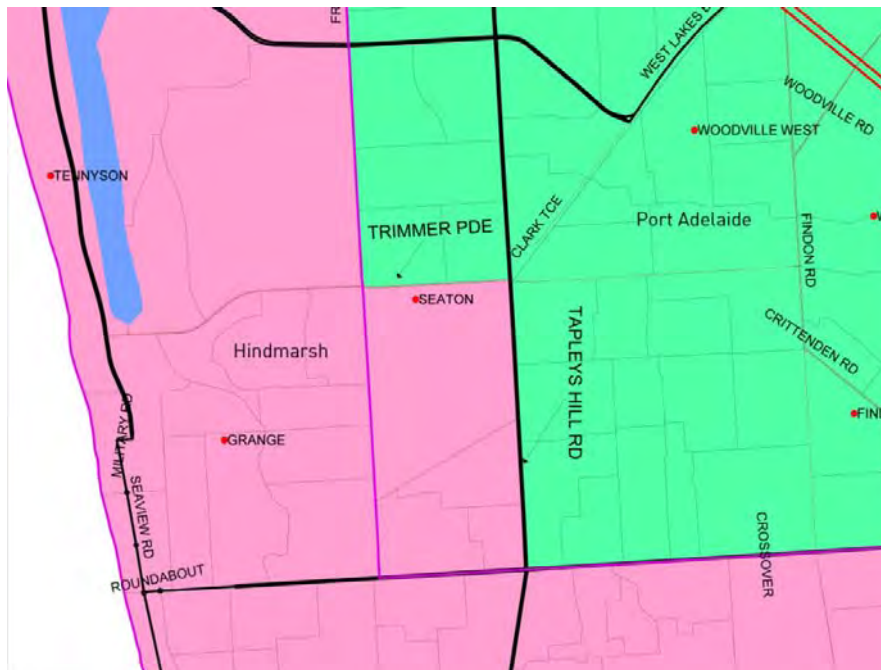

The proposed boundary depicted below retains the North-South and coastal orientation of the seat and provides the best option for meeting the Committee's primary enrolment criterion while effecting minimal changes to the electoral boundary.

Having tested a number of options, the Liberal Party considers a minor realignment of the Division's existing boundary is all that is necessary to bring Hindmarsh within quota while preserving the seat's historic coastal focus and communities of interest.

The Liberal Party proposes to return the portion of suburban Edwardstown to Hindmarsh that was shifted to neighbouring Boothby in the 2003 redistribution. In doing so, this would permit a return to the more defined boundary of South Road and Daws Road and place Edwardstown wholly in Hindmarsh.

Another incremental change was considered in the north of the division. Not wishing to cross Grand Junction Road and encroach further on the community of interest around Semaphore and Port Adelaide, the Party considered a section four census collection districts immediately abutting the existing boundary to be the best option for bringing Hindmarsh within tolerance.

This change would shift the Frederick Road boundary east, to Tapleys Hill Rd and Trimmer Parade as outlined in Map Five. Table Six outlines the projected enrolment for Hindmarsh should these recommendations be adopted by the Committee.

Map 5: Proposed realignment of Hindmarsh-Port Adelaide boundary along Trimmer Parade and Tapleys Hill Road

Table 6: Proposed enrolment changes to the division of Hindmarsh

		Electors 2011	Electors 2015
2010 Boundary		100,075	100,554
Retains		100,075	100,554
Gains from	Boothby	1,494	1,519
	Port Adelaide	1,326	1,322
TOTAL		102,895	103,395

Adelaide

While the division of Adelaide is within the accepted deviation, it is below the projected 2015 quota.

Given the division of Port Adelaide is well above quota, the Liberal Party of South Australia recommends a realignment of the western boundary to fully incorporate the suburb of Croydon, and partially incorporate the suburbs of West Croydon, Allenby Gardens, Welland and Hindmarsh into the division of Adelaide.

This would realign the existing western boundary from South Road to the main suburban feeder route of East Ave and Rosetta Street. This boundary would be of equal significance to the existing Goodall Avenue boundary on the Division's north-west corner and is depicted below.

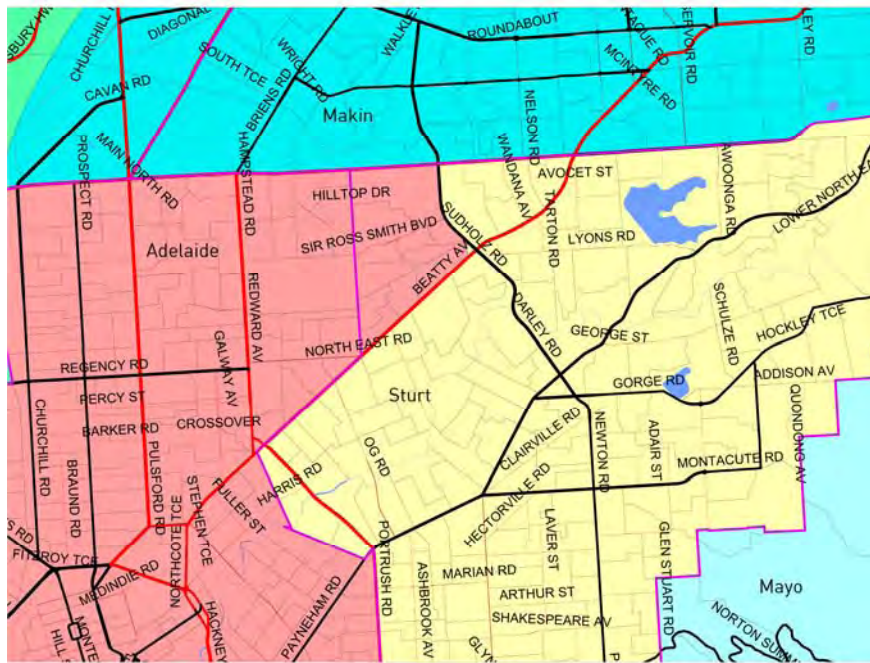

Map 6: Proposed realignment of Adelaide-Port Adelaide boundary along East Avenue, Port Road and Rosetta Street

Abutting the Division's eastern boundary, the division of Sturt is well below the projected quota.

In order to effect the changes outlined below for that division, being to fully reincorporate the western boundary of the state division of Bragg into Sturt, the Liberal Party submits a realignment of Adelaide's north eastern boundary is justified.

This realignment would shift the present Fosters Road boundary east to Sudholz Road and bring the suburbs of Oakden and Hillcrest into Adelaide, strengthening Adelaide's connection with the City of Port Adelaide Enfield. Additionally, these suburbs share a strong community of interest and transport facilities with the electorates of Makin and Adelaide.

The effect of the changes suggested are depicted in the following map and outlined in the table below.

Map 6.1: Proposed realignment of Adelaide-Sturt boundary along Sudholz Road

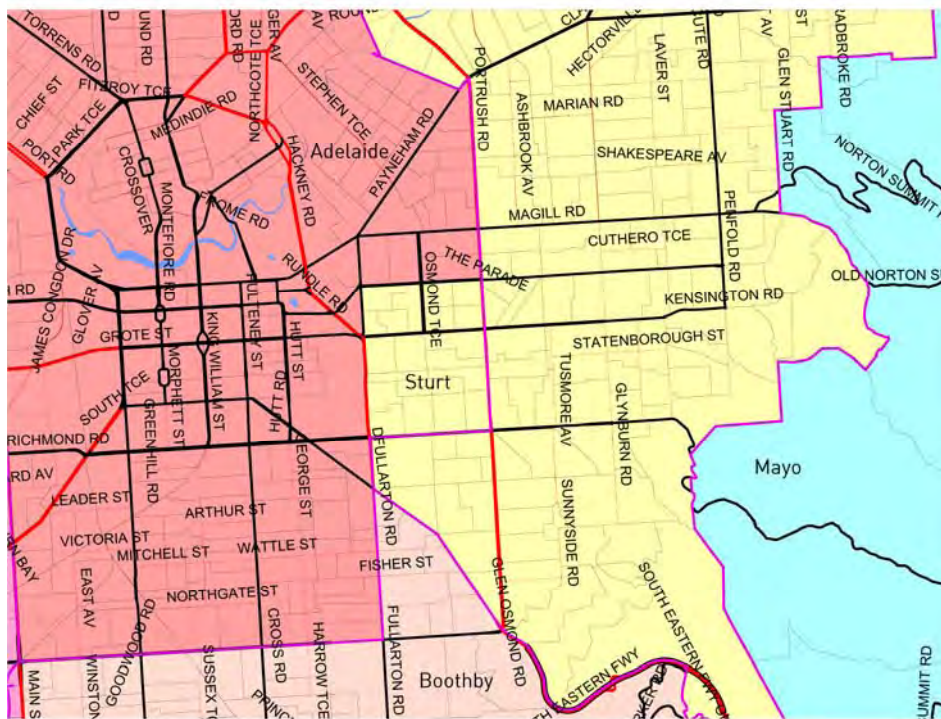

Table 7: Proposed enrolment changes to the division of Adelaide

		Electors 2011	Electors 2015
2010 Boundary		98,397	102,662
Loses to	Sturt	6,366	6,518
Retains		92,031	96,144
Gains from	Port Adelaide	4,081	4,217
	Sturt	4,399	4,521
2011 Boundary		100,511	104,882

Sturt

The current division of Sturt in the eastern suburbs of Adelaide has a very different economic profile in the southern part of the electorate compared to the northern part of the electorate. Whilst this is a secondary criterion for the consideration of the Committee it is necessary to consider when discussing the communities of interest and the proposed new boundaries for the division of Sturt.

The division of Sturt needs to gain 4,000 voters. It is therefore proposed that the western boundary of the division be extended to enable the inclusion of the whole of the western boundary of the State division of Bragg and a greater portion of the State division of Norwood. This is illustrated in Map 7 below.

Map 7: Proposed realignment of Sturt-Adelaide boundary along Fullarton Road and The Parade

Historically, Sturt has always consisted of a large portion of the state division of Bragg and suburb of Burnside and being inner metropolitan eastern seats these areas share communities of interest, economic and social similarities and similar means of communication and transport as the immediately surrounding areas of Sturt.

To facilitate this shift, the Liberal Party of South Australia recommends a realignment of the existing Fosters Road boundary with Adelaide to realign it further east, parallel to Sudholz Road, as shown in Map 6.1

In doing so, the suburbs of Oakden and Hillcrest would be wholly placed within the division of Adelaide, which already covers a greater proportion of the City of Port Adelaide Enfield than does the division of Sturt.

Table 8: Proposed enrolment changes to the division of Sturt

		Electors 2011	Electors 2015
2010 Boundary		98,897	101,161
Loses to	Adelaide	4,399	4,521
Retains		94,498	96,640
Gains from	Adelaide	6,366	6,518
TOTAL		100,864	103,158

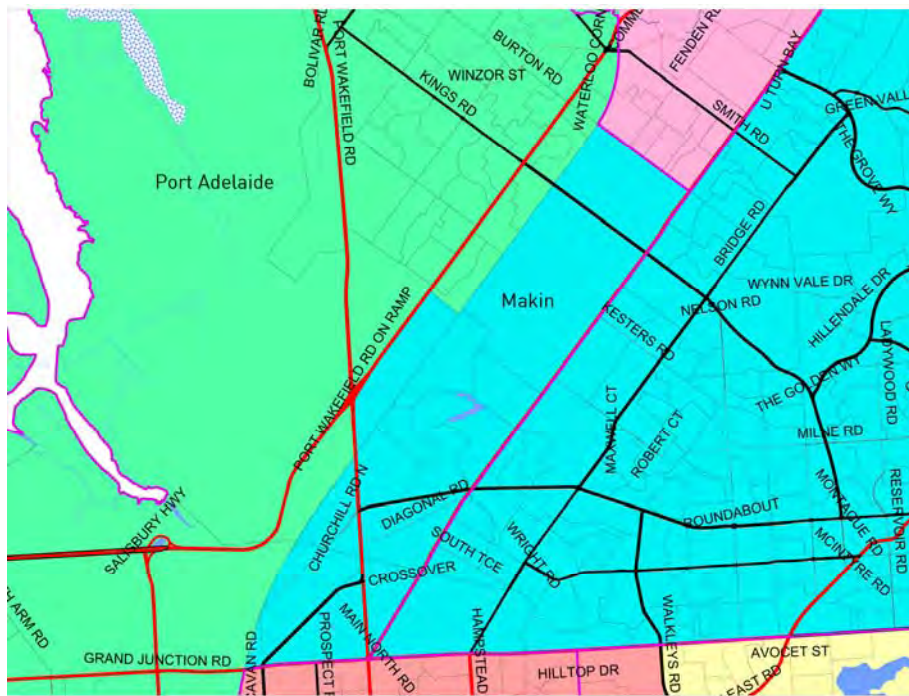

Makin

The division of Makin in the north eastern area of the state brings in part of the foothills and the state divisions of Florey, Wright, Little Para and part of the state divisions of Playford and Torrens.

The division of Makin has the lowest projected enrolment of any South Australian seat.

Makin is skirted by strong natural, community and transport boundaries in Gould Creek to the north, the Tea Tree Gully LGA boundary to the east and Grand Junction Road in the south. The Liberal Party submits that these boundaries remain appropriate for Makin if a realignment of minimal disruption is to take place.

The Liberal Party of South Australia submits that the realignment of lowest disruption to the adjoining seats and with the best outcome in terms of meeting the Committee's primary enrolment criteria, is to incorporate the area known as Mawson Lakes and its surrounds into the division of Makin, as illustrated below.

Map 8: Proposed realignment of Makin-Port Adelaide Boundary

Mawson Lakes is a relatively new planned development and is fully self sufficient in terms of commercial, education and public transport facilities and services. As a result there exists strong communities of interest within the region.

By incorporating Mawson Lakes into Makin, the Liberal Party submits that no further realignment is necessary to the Division.

Based on projected figures this will mean that there will be approximately 106,295 voters in the division of Makin.

Table 9: Proposed enrolment changes to the division of Makin

		Electors 2011	Electors 2015
2010 Boundary		96,204	99,934
Retains		96,204	99,934
Gains from	Port Adelaide	5,025	6,361
TOTAL		101,229	106,295

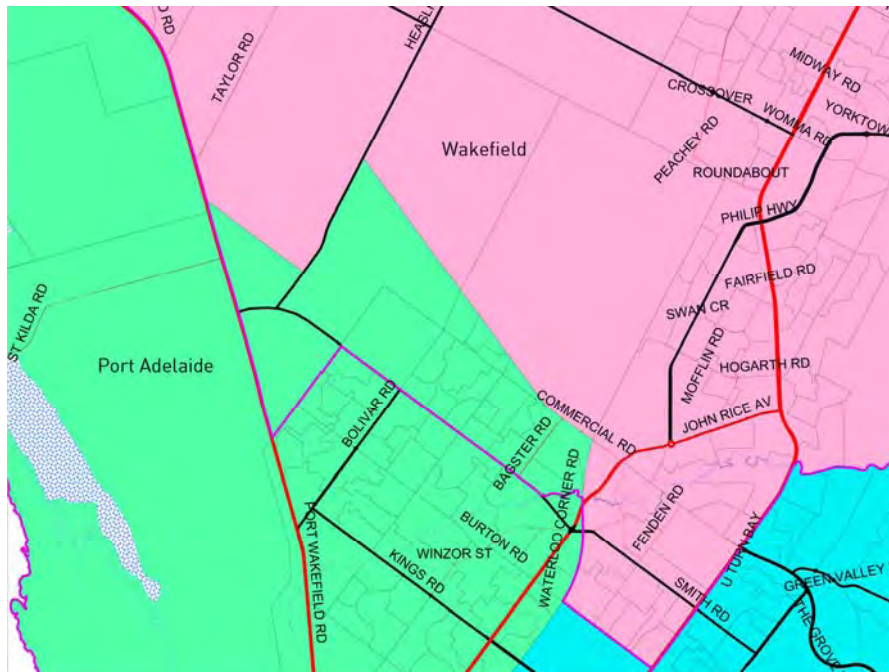

Port Adelaide

The division of Port Adelaide has a high projected enrolment, thereby requiring a realignment of boundaries.

The realignment of Makin outlined above and necessitated by that Division's low projected enrolment, and the submitted realignments to Adelaide and Hindmarsh necessitate Port Adelaide's shift north into the densely populated southern section of Wakefield and the former seat of Bonython.

This is a logical realignment given it is merely an extension of Port Adelaide further into the City of Salisbury, to the strong boundary of the Defence Science and Technology Organisation (DSTO) Site.

Additionally, Salisbury North and Burton share a number of recreational, educational and commercial facilities with neighbouring Paralowie making this a more logical shift than the sparsely populated region that lies northwest of the DSTO and Heaslip Road.

Map 9: Proposed realignment of Port Adelaide-Wakefield Boundary

The proposed changes bring Port Adelaide well within the permitted deviation from the quota as outlined below.

Table 10: Proposed enrolment changes to the division of Port Adelaide

		Electors 2011	Electors 2015
2010 Boundary		104,614	109,501
Loses to	Adelaide	4,081	4,217
	Hindmarsh	1,326	1,322
	Makin	5,025	6,361
Retains		94,182	97,601
Gains from	Wakefield	7,165	8,067
TOTAL		101,347	105,668

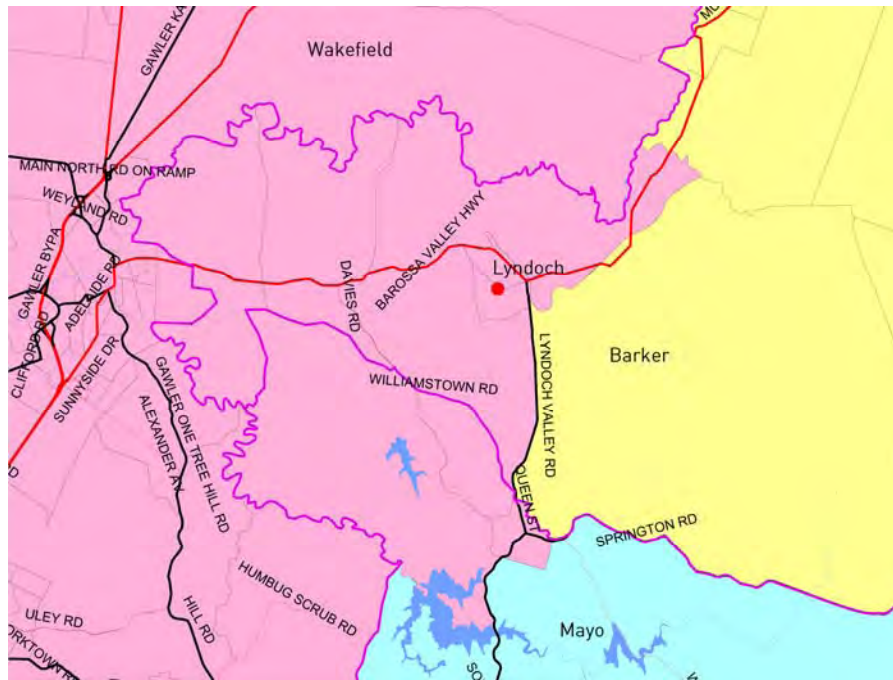

Wakefield

The division of Wakefield has a projected enrolment that is above quota and the second largest projected growth rate to 2015 of any South Australian division, based on AEC data.

As outlined above, the Liberal Party of South Australia proposes a realignment of Wakefield's southern boundary serving to shift the suburbs of Burton and Salisbury North to Port Adelaide in their entirety.

Given the significant demarcation provided by the DSTO site at Edinburgh, the Party proposes that this is the most natural and least disruptive option that enables a similarly appropriate movement to the division of Makin.

The shift of voters to Port Adelaide enables the previously identified shift of Lyndoch from the division of Barker and Williamstown from the division of Mayo. These towns share a clear and logical community of interest with Gawler as a result of their close proximity to the Gawler region.

Map 10: Proposed realignment of Wakefield-Barker Boundary

These small realignments ensure that Mayo, Barker and Wakefield are well within the allowable deviation from the projected quota.

Table 11: Proposed enrolment changes to the division of Wakefield

		Electors 2011	Electors 2015
2010 Boundary		100,747	107,241
Loses to	Port Adelaide	7,165	8,067
Retains		93,582	99,174
Gains from	Barker	2,302	2,523
	Mayo	1,744	1,932
TOTAL		97,628	103,629

Grey

The Liberal Party of Australia (SA Division) does not propose any boundary realignment to the division of Grey.

Strong communities of interest exist along Grey's southern boundary with Wakefield and Barker and the Liberal Party notes the significant changes incorporated to the Division in the 2003 Redistribution.

Given the Division's average projected growth rate to 2015 and marginal deviation from both 2011 and 2015 enrolment quotas (less than 0.75%), the Liberal Party submits that no realignment is necessary.
