Hi again s22 Rachael has a question in relation to the contract

The contract names Rachael as the person to connect with in relation to PID issues. Is this right? If it's right, then does this mean she is an Authorised Officer for the purposes of the PID Act?

Unfortunately, our team are only checking the budget availability. I think procurement team would be best to confirm the information.

oh right - sorry, I thought you were strategic sourcing

let me know if you need me to clarify the budget availability question

Rachael as the FAC has indicated she will move funds around to accommodate this procurement if required
