To the Electoral Commission:

I am writing in support of Zali Steggall's Objection #671 to the proposed electoral changes.

I agree with Zali that the current electoral district encompasses a coherent and linked community of common interest including social, regional economic, travel, communication and physical features.

I agree with Zali that inner metropolitan communities of interest should be kept together.

I appreciate that Warringah has been retained as an electorate but urge you to accept Zali's objection and also retain our current boundaries.

Thank you.
