Comment on Objection 686 – Kylea Tink MP

I have read the objection to the abolition of the seat of North Sydney by Kylea Tink. I thoroughly agree with her objection and proposed alternative. North Sydney is the major business district within the region north of the harbour. We are a very different community to our neighbours on the northern beaches where I am slated to be allocated. We united and built an even stronger community once the option of a Community Independent became available. Further, we are surrounded by cranes & this area is growing swiftly. To be divided across the seats of Warringah, Bennelong and Bradfield will destroy what has been created by this unique community.

Yours sincerely

Katherine Mura
