[REDACTED]

I would like to object to the abolition of the Federal seat of Higgins.

The seat of Higgins has produced two Prime Ministers and the longest serving Federal Treasurer of Australia.

It is an historic seat and incorporates a strong community of interest especially in the local government area of Stonnington City and I would not like to see Stonnington local Council dispersed into diverse separate areas; I would like to keep our community united.

Abolishing Higgins means our community's representation will be fragmented in Canberra. I want to see one strong advocate.

I do not believe we will have meaningful democracy if the seat of Higgins is abolished.

Sincerely  
Corinne McLaren
