Submission on the proposed Tasmanian redistribution details

Category: Names
Details: Australia's heritage as a nation should be recognised. The preservation of federal electorate names that were in use at the time of Federation is part of our democratic heritage. This is important in maintaining our traditions as a democracy. Change should not be made on the basis of orchestrated interest group pressure. In my opinion it is important to preserve and continue the use of "Federation" names for electoral divisions. I strongly support the retention of the electoral made of Franklin and oppose any change. New names should be used for new divisions which will be added as the population grows.
