Submission on the proposed Tasmanian redistribution details

Category: Names

Details: The proposed renaming of the electorate of Franklin is outrageous and egregious given that 24 out of 150 federal electorates are already named after aboriginal people or places.

Given the history of the person the electorate is being considered to be renamed after, which included leading raids in which White women and children were murdered in cold blood, the name change is highly inappropriate, inflammatory and undermines community cohesion and Australian values.

The proposed change, in my opinion, provides insight into a sick, depraved and highly defective world view. The individual who proposed the change should be sacked immediately, banned from the civil service and interred in a psychiatric facility for suggesting a bloodthirsty murderer of women and children, be honoured with having a federal electorate named after them.

In summary, I reject the proposed name change.
