Submission on the proposed Tasmanian redistribution details

Category: Names and Boundaries

Details: I feel this is another incredible waste of tax payer monies. It is not going to change which political party we vote for. The Tasmanian government and federal government spending on these types of things feels exorbitant especially in the current economic climates. The name proposed name change for the new Franklin electorate seems both extremely long and cumbersome as well as riddled with historic controversy apparently. I don't feel this is the answer.
You are no doubt going to be spending 100's of thousands. Likely more like millions of dollars of our taxes on documentation changes, boundary maps, consultations and website information. It is hard to comprehend the out of touch decisions of political departments. Even having had to work beside them for years.
