It's not the role of the Commissioner to dabble in social engineering you have no business changing electorates to do called Tasmanian Aboriginal names or words. This is a function for Tasmanian residents to determine for which there has been no agreement and much debates especially when the Tasmania Aboriginal Centre doesn't speak for. All Tasmanian groups or the general public and whose leaders consistency state they don't recognise the legal system. It's hypocrisy.*

Expected Outcome

That the commissioner keep his nose out if didn't engineering and remove this ridiculous decision his made with no authority*
