Submission on the proposed Tasmanian redistribution details

Category: Names

Details: This is an absolute insult to anyone with sound mental faculties.

Replacing the name of a great scientist and explorer with that of a known murderer of unarmed women and children is beyond the pale. Regardless of any context or prevaricative waffle and handwavium to excuse objections against this egregious, divisive bit of name changing.

This does not unite the country and does not serve to uplift indigenous folk, but indeed sets to divide the nation along indigenous and non indigenous lines.

This is a poor, politically driven bit of window dressing aimed to embolden and empower whilst expecting any reaction to be racist and dismissed as such, denying any legitimate criticism under a weak catcall.
