Submission on the proposed South Australian redistribution details

Category: Boundaries

Details: The regional population votes shouldn't be mixed with suburban populations, this will cause the regional populations views to get diluted or completely over run by the higher numbers of suburban issues/votes, surbuban peoples views are not compatable with country views.
If the same high level of development was more than 100km outside city boundaries, fair enough. If population numbers are putting pressure on votes and locations, make a new electorate.....
