Submission on the proposed South Australian redistribution details

Category: Names and Boundaries

Details: I do not like the proposed name change for the Electorate of Grey. It is just trying to go over to all first people names. She may have done a lot, but that is not enough to change names of a Electorate. As for including a city electorate into a rural electorate, that is only trying to get it into a different outcome for city members that will have a higher voting number and nothing will then be done out in the rural areas. This is becoming COMMUNISIM at its greatest form. Do as we say, to heck with what the rural people's choices or feelings are known. You do not matter to us, seems to be the way they think of rural people in general.
