Submission on the proposed South Australian redistribution details

Category: Boundaries

Details: Grey already covers the largest geographical area and represents a significant regional population. Expanding it to include suburban Adelaidean area with very different demographic needs would not be appropriate. Effective representation is already challenged by the sheer size of the electorate, and further expansion would only dilute accessibility for existing communities. We ask that the region not be extended, as this would place additional strain on representation and fail to adequately serve current members.
