Submission on the proposed South Australian redistribution details

Category: Names and Boundaries

Details: Gray is already one of the biggest electorates in the country geographically. It is an electorate that contains country communities. By unceasing the boundary to include the Adelaide suburb of Riverlea would greatly change the needs of the electorate. As someone who has always lived on the Yorke Peninsula, I know that the needs of locals, businesses and farmers differ dramatically to those who live the the city.
By including Riverlea in the new boundary for Gray, the number of people living there will overpower those country people and their needs will not be listened to or solved.
