Submission on the proposed South Australian redistribution details

Category: Boundaries
Details: We would like the boundaries for the Mayo electorate to remain as they are. The proposed change will make the electorate more of an urban electorate, therefore disadvantaging the rural voters who live in close proximity to urban areas and have very different issues to the urban population. It seems that every re-distribution that happens, be it state or federal has the end result of diluting the rural voice in Australia and therefore subsequent governments become more and more city centric.
