Well, have regarded the advertisement about a new Victorian Federal electoral division and wondered why?

Why do we need another politician when we are burdened already with local councils, state governments - upper & lower houses, federal governments House of Reps & Senators? Same old different leg action!

The current "pandemic" of Coronavirus or Covid coverup has demonstrated what a shambolic "democracy" we lackadaisical Australians reside in. Border control what an insult to each and every citizen of this country; and a Federal government which stood by and allowed various States to impose ridiculous conditions on Australians. Primarily we are Australians and now as one that is bounded in Victoria and rebounded in Gippsland you propose to change a boundary and create a new place of bandage to facilitate the creation of a new electorate for a politician that is needed like a hole in the head.

I could say more but at my age I do not enjoy the thought of incarceration "COVID. LOCKDOWN" what a farce!

ALIAS "BURRABOGIE BILL" (UNMASKED).
